

TILT PROPS

OUR PROPS ARE MADE FROM THE HIGHEST QUALITY MATERIALS AVAILABLE

Advances in tilt up slab construction techniques have brought new challenges as panel sizes and resulting loads have escalated. Our range of push-pull props suit high load applications. Both sections of the props are permanently tagged with model and working loads.

Available in four sizes.

Safe working load recommendations:

- Two prop/braces minimum per panel for stability and load transfer.
- Whenever possible the props/braces should be fixed to the panel prior to lifting.
- For additional or more in-depth information contact Shore Hire.

TILT PROPS SPECIFICATIONS

Length	Closed	Middle	Full	Weight
0.8m – 1.4m	0.8m – 32kN	1.1m – 30kN	1.4m – 27kN	20kg
2.6m – 4.4m	2.6m – 35kN	3.5m – 32kN	4.4m – 30kN	38kg
4.4m – 6.8m	4.4m – 40kN	5.5m – 23kN	6.8m – 14kN	53kg
6.2m – 10.1m	6.2m – 25kN	8.0m – 24kN	10.1m – 6kN	76kg
