Lasers

Level Laser — Topcon

Multi-purpose Grade Laser

Designed for a wide range of tasks, the RL-SV2S can be used for horizontal, sloping and vertical laser applications. Slopes up to $\pm 5\%$ can be used in either the X or Y axis. Turn it on its side and use it for alignment and layout tasks as well!

With an operating range of more than 800 metres (diameter), IP66 rating and 120 hours operating time with standard alkaline batteries, the RL-SV2S grade laser is tough enough for any job.

Features

- Dial-in grade setting
- Grade matching (manual slope)
- Hi Alert
- Warning on LS (Hi alert, battery)
- Electronic beam masking
- Vertical setting
- Vertical alignment
- Remote control (range 200 m) RC-60

Multi-purpose Level Laser

Grading, excavating and general construction projects are perfect applications for the RL-H4C. With the added "Slope Matching" feature you can check grade on all your flat and slope work.

The 600 rpm rotation speed makes the RL-H4C a great match with any machine mounted Laser sensor. Wherever you need an accurate horizontal Laser, the RL-H4 C is your best solution.

Features

- Long-life battery
- All weather dependability
- New smart long-range receiver
- Tough water-resistant IP66 construction rating
- ± 5 degrees self-levelling range
- ± 10 arc seconds horizontal accuracy
- 800 metres diameter
- 400 metre range

Accessories

- Tripod
- 5m staff
- Receiver staff clamp

Pipe Laser — Topcon

Topcon Pipe Lasers

Shore Hire's Pipe Lasers offer a combination of features and technology that are proven to meet the demands of contractors in the field.

Whether in the trench or over the top, the Pipe Laser is the industry standard because you can see the GREEN BEAM anywhere and under any weather or site conditions.

It's the most visible construction laser ever – the green beam is four times easier to find in sunlight than conventional beams.

The Pipe Laser is made from a rugged cast aluminium waterproof housing for tough "in the trench" conditions.

Features

- Green beam
- Most visible construction laser ever
- Remote control range = 200m (front)
- Easy to see angle display
- Left-right beam line control
- Up to 150m range
- Tough aluminum case
- Long-life batteries
- Top-loading battery pack

Top-loading battery pack

Up/Down laser plummet

Large illuminated LCD screen

Rugged cast aluminum, waterproof housing

Stringline attachment

Removable handle

Beam mode matches beam intensity

SmartLine® automatic alignment

Left/Right line control and automatic center
