

# STRONG BOYS

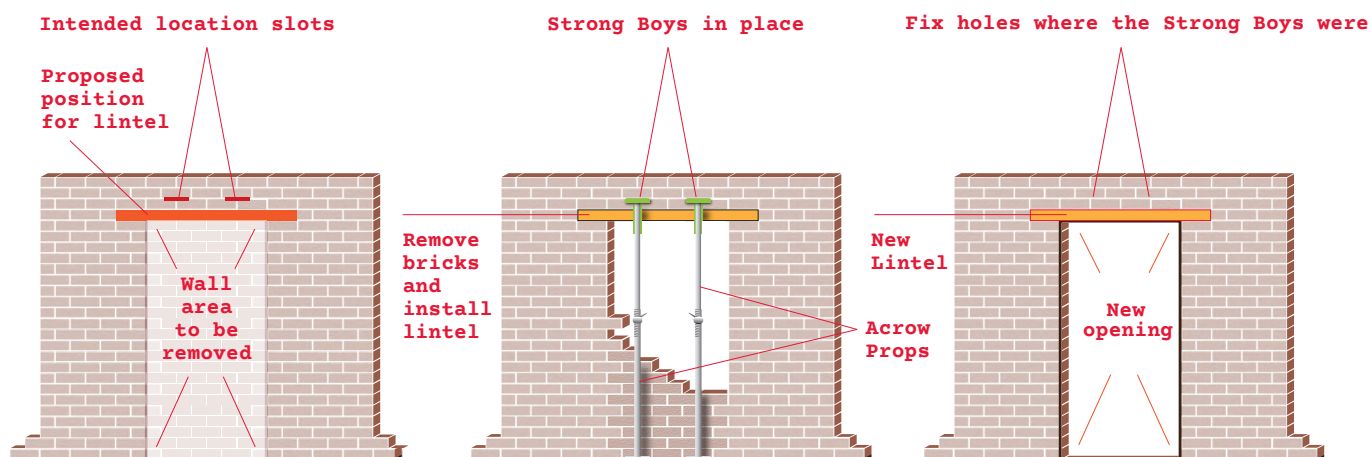

**SUPPORTING WALLS WHILE YOU FIT LINTELS OR BEAMS CAN BE DIFFICULT BUT NOT WITH THE STRONG BOY WALL SUPPORT.**

The Strong Boy wall support system is a robust steel acrow prop head attachment designed to provide temporary support to masonry walls whilst lintels or beams are installed.

The Strong Boy is 520mm long x 160mm wide x 245mm deep with a weight of 6.45kg. The Strong Boy has been designed to be used in conjunction with standard acrow props by securely fitting onto the end plate of all the standard acrow props.

## NEW OPENING METHODOLOGY

# ACROW PROPS

**SIMPLEST AND QUICKEST METHOD IN ANY FORM OF TEMPORARY SUPPORT WITH A MULTITUDE OF USES.**

Adjustable Steel Acrow Props are designed and manufactured to fully satisfy the requirements of the Australian Formwork Code. They provide excellent temporary support and are economical, easy and quick to erect.
