

TEMPORARY FENCING

With a galvanised finish and a fully welded frame supported by a Fence Base, the system is designed for fast erection and dismantling.

Temporary Fencing suits building, construction, excavation, demolition, and general crowd control.

Additional bracing is available to add support to fences.

TEMPORARY FENCING SPECIFICATIONS

| Description | Dimensions | Weight |
|---------------|-------------------|--------|
| Fence Panel | 2425 x 2000mm | 27kg |
| Concrete Base | 600 x 220 x 150mm | 30kg |
| Rubber Base | 750 x 200 x 150mm | 24kg |

FIRE RATED MATTING

SALE ITEM ONLY

Our Fire Rated Mats HD (Heavy Duty) provide highly visible, slip-resistant walkways for use throughout construction sites. Ideal for rough or uneven surfaces, such as sand, gravel, dirt and mud, or any material present on your job site.

The coiled PVC structure traps mud and dirt from tradespeople's boots, preventing it from being walked through internal spaces and the surrounding environment.

FIRE RATED MAT SPECIFICATIONS

| Size | Thickness | Roll Weight | Colour |
|----------|-----------|-------------|--------|
| 1m x 10m | 10-12mm | 29kg | Red |
